Crack Detection & Analysis

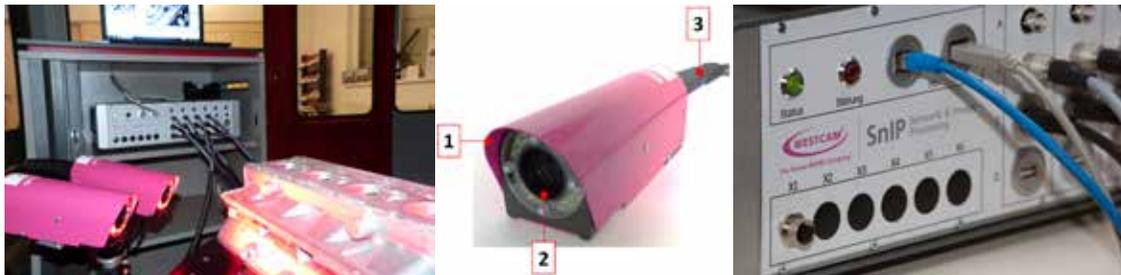

End of
year offer
2018

END OF YEAR OFFER 2018

Test in 2018 – Purchase in 2019

Test now – pay later!

Take the chance!

You still have to convince yourself or your superior about the advantages in using our **BVS-R image processing and crack detection systems?**

- 24/7 automated test bench monitoring
- reduced inspection workload
- increased test bench utilization
- savings in your test process costs
- high documentation quality
- Precise definition of the events
- Synchronized with excitation frequency

Till end of the year 2018 you only pay the costs for the system training. The rental fee will be deducted from your purchase order in 2019. Please get in touch with me to arrange a system test.

Great success and best regards

Harald Unterrainer
Director Business Unit Sensorik&ImageProcessing (SnIP)
